GUNDLING'S Tailor-Made

Our Clothing is rapidly taking the place of custom made garments. It is made to wear-made to win your confidence-

We can readily imagine the feelings of a man who has been unfortunate in his choice of a clothier, having been misled by clatton, though it has been. It withdrew sensational newspaper advertising. We do not want such a before the final meeting. The workmen trade-mark. Our purpose is to give the greatest legitimate value say it is hardly likely that the chimney for the amount you have to spend and win business upon the for the amount you have to spend, and win business upon the solid merits of our Tailor-Made Clothing.

Boys' Best Made Clothing.

Boys' best made Clothing, that's what the Star Clothing cellent. I have been in favor for years of House sells, on y the very best, most durable, fashionable and some of them, but others are somewhat nicest fitting clothing. We recognize the fact, well known to objectionable. Nothing of course, can be all mothers, that boys wear out their clothing quicker than men, and for that reason Boys' Clothing should be, if anything, better made than men's. Our Boys' Clothing is made for wear as well as for looks, and our prices are lower than inferior Clothing is sold for elsewhere.

GLASS SITUATION. WHAT THE WORKERS UNION SAYS

Still a thing of the Fature-- The Prospective Lockout Attracting Earnest Attention. General Industrial News of the Locality in Iron, Steel, Nails, etc.

The prospective lockout in the flint glass factories is the absorbing industrial topic just now. An INTELLIGENCER reworks was not in the Manufacturers' Assohouses starting up to supply the greatest staple of the glass trade by joining with the other glass manufacturers just now President Smith, of the Glassworkers Accociation, said: "I have read the rules

I dare say thoy will not be ready before Monday, when, of course, they will receive due considerates."

An Associated Press telegram from Pittaburgh has the following:

The rules adopted by the flint glass manufacturers for the government of their employee was the absorbing topic among members of the union to-day. Furniture Making in Wheeling.
Mr. F. C. Arbenz, of the furniture factory, said yesterday that the furniture industry was about the same this year as in recent past year—no better, and quite as good. Little of their furniture is said at home. The trouble is that they make too good a quality of furniture to compete in a general market with the product of more extensive factories that run to epocialitie. Too many varieties are manufactured here for the best results. Yet the business is prospering. The Inter-State Commerce bill his benefitted this industry in Wheeling alightly; even before its passage few points could compete in freight rates with Wheeling. Mr. Arbenz thinks there is a future for furniture casking in Wheeling. An Increased Force of Workman Found to be Necessary.

So great has been the increase in the branch of business recently introduced in Raised to a Higher Plane.

The tide of trade mounts higher and higher. It is a demonstration extraordinary of the people's confidence in our goods and prices. Nothing short of our great stock could have withstood the grand rally of last week.

Every Statement Vindicated! Every Promise Redeemed!

We have rescued the name READY-MADE out of a slough into which years of disregard for style, quality, or anything good had placed it in Wheeling. We have placed the name where it should be-on the same shelf with tailor make.
